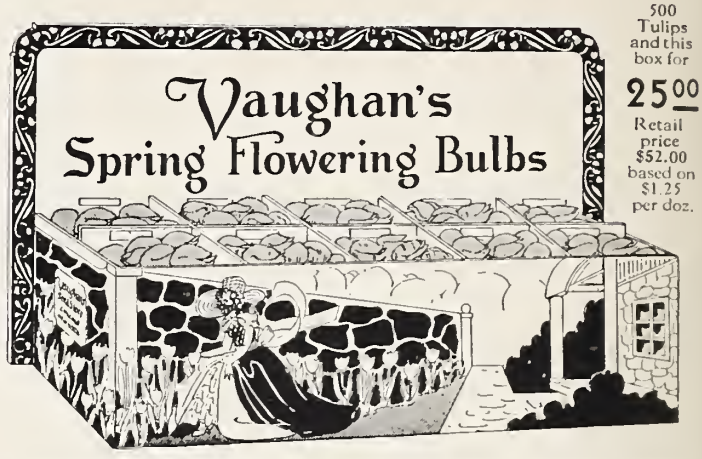
Double Your Money on Tulips Sold from this Attractive Display

BEST selling items on the home garden list for fall planting are spring flowering bulbs. They provide most garden color in the first two months of spring. Tall, late flowering tulips give one of the finest displays of the garden year. Years of experience have proved our attractive display box to be the most economical way to offer your customers a varied collection of these outstanding flowers.

Vaughan's ten-compartment display box, staunchly made of 100 point cardboard printed in brilliant colors, will hold 500 bulbs, 50 each of ten varieties.

This beautiful display box, with 500 Top Size tulips, 50 each of ten named varieties, **Including Red Emperor** separately bagged, $25.00

We use TOP SIZE BULBS, the size which sells best over the counter. The 10 named varieties (50 each) of good named varieties. The price to you is $25.00 for the box and 500 bulbs of 10 named varieties. You retail them for $1.25 a dozen, or more, because the selection is worth more, doubling your money. Each variety is packed 50 in a bag labeled with its name. You empty one bag into a compartment, and refill in the same manner when it is empty. This prevents mixtures and loss of bulbs. After the display box and first collection have been bought, refill orders will be accepted for $24.00 for 500 bulbs, 50 each of 10 varieties, in bags of 50; or $46.00 for 1,000 bulbs, 100 each of ten varieties. Colored pictures are provided to paste on the compartments. This box keeps the bulbs in the open air, thus preventing bacterial rot which comes when they are sealed in cartons. The named varieties are kept apart without mixing, which adds greatly to their value.



Tulip Display Box Holding 500 Bulbs, 50 each of 10 Named Varieties

Counter Space Needed, 13x29 Inches.

The display box with its garden design printed in brilliant colors occupies very little space on your counter. It is an ornament to any store. It solves the problem of offering bulbs for sale in the retail shop, without danger of mixing varieties, and losing stock.

EVERY customer who enters your store is a prospect for a sale of Paper White narcissus bulbs. Here is a carefully designed, thoroughly tested method of displaying and selling them at a minimum of trouble and expense and the maximum of profit.

Florists cannot afford to sell inferior bulbs. Vaughan's bulbs of 13-14 ctm., circumference and up are of flowering size and highest quality. Three bulbs are enclosed in an illustrated bag which prevents picking over of the individual bulbs, injurious handling and resultant waste. Every bulb we ship you can be sold at a profit.

Our Paper White display box, of white covered corrugated board—printed in attractive colors, will harmonize with your store display and sell its contents. It occupies 14½ by 19 inches space. Suggested retail price, 45c per bag on 13-14 ctm. and 50c per bag on 14-15 ctm.

Forcing Fall Bulbs

TULIPS

Upon receiving either precooled or regular Tulip bulbs, plant them at once and grow them as close to 48° F temperature as possible until the shoots are about 2 to 3 inches high. When the plants are **at least** 2 to 3 inches high they may be moved to the greenhouse bench. When the shoots start to emerge, it is wise to spray all flats or pots with a solution of fermate made in the proportion of 1 pound of fermate to 100 gallons of water. This spray will control and prevent the spread of fungous diseases including Botrytis, or tulip "Fire".

Spotting of Tulip flowers or Botrytis often occurs in late spring when the atmosphere in the greenhouses is very damp. Ventilate fully in order to avoid high temperatures and excessive moisture. Water very carefully and **never over the tops of the plants.**

If the temperature control has been followed as above, the best and earliest bloom will result without growing at above 60° F. Bulb seasons vary as to their early forcing qualities, and it is necessary to play a little on the late side by a week or so rather than risk the entire crop. 60° F means Day and Night temperatures, and we recommend growing the first two weeks in the bench at 55° F. We have seen bulbs grown at 60° F come perfectly one week after those grown at 67° F had white tip and blasted buds. We recommend the following varieties for early bloom in order of benching and earliness. Approximate dates follow.

PRECOOLED TULIPS

	Benching	Blooming
Albino	December S	January S
Golden Harvest	December 1S	January 15
Red Pitt and Wm. Pitt	December 20	January 20
Rose Copeland and Wm. Copeland	December 10	January 10
Paul Richter and desire	December 20	January 20
Bartigon	December 26	February S

REGULAR TULIPS

Dutch Stock	Benching	Blooming
Albino	December 14	January 21
Golden Harvest	December 21	February 1
Red Pitt and Wm. Pitt	January 1	February 10
Rose Copeland and Wm. Copeland	December 21	February 1
Paul Richter	January 1	February 10
Bartigon	January 1S	February 20

Varieties may be held for later blooming by continuing the growing at 48° F until the plants are almost ready to bloom in storage or by growing cooler than 60° F on the bench. Tulips should be planted in well drained soil. Any well balanced fertilizer improves the color of foliage and flowers.

If it is impossible to plant bulbs at once on their arrival, at least unpack and store them as close to 48° F as possible. Nothing will spoil them faster than temperatures above 70° F.

If you are going to grow them in a cold frame, pick a site with good drainage and water with cold water thoroughly before placing the flats or pots. A shady spot is preferable so that the sun does not keep the soil temperature high during possible warm Fall days. Cover the flats or pots with 3 or 4 inches of sand so that sprouts will not be broken easily when the time comes for moving into the greenhouse. Where winters are severe, put on a heavy layer of leaves or straw just before hard freezes are apt to come. Spray the tops of pots or flats with parzate mixture or dust with fermate mixture on bringing into the greenhouse. Grow day and night at 60° F or below; or 55° F at night and 63° F during the day. Extreme heat in the greenhouses, any temperature from 67° F and up, may cause buds to blast or flower tips to turn white, and have poor color. If the plants become dry at any stage of growth bud blast will result.

We strongly recommend treating all tulip bulbs before planting by dusting with Spergon at the approximate rate of 1 lb. for each 3000 bulbs. Spergon is obtainable in units of 1 oz., 1 lb., 10 lbs. and 100 lbs. This treatment results in giving more even growth of plants by better rooting conditions.

Do not use Cuprinoled flats. It definetely repulses tulip roots.

Forcing Fall Bulbs--Continued

IRIS

Early Wedgewood bulbs handled by us have had the proper curing at increased temperature levels right after harvest. This treatment makes the bulbs bloom 2 to 3 weeks earlier than normal. While precooling in addition makes them bloom 6 weeks earlier than normal. Plant precooled bulbs at once under cool soil conditions. Plant Iris in deep flats or benches so the roots have plenty of room; 3 x 3 inches allowing a minimum of 9 sq. inches.

The best soil for Iris is low to average fertility and not fertilized. Excessive nitrogen delays flowering and produces weak stems. The plants require good light conditions, no shading, and must be kept well ventilated and watered at all times. If the flats have to be moved it is imperative that they are well watered.

Flower buds are not initiated until the plant is approximately 2½ inches high. Only large size bulbs, 10 ctm. & up, should be used for early forcing. Temperature during forcing should not be higher than 60° at night.

Upon receipt of normal dry storaged Iris Wedgewood 10 ctm. and up you should plant them and grow at 55°F. not higher, in the bench or in storage, 48°F. would be acceptable but delays growth about one week. After the plants are 1½ inches high they should be definitely moved to the greenhouse and the day or night temperature should never be allowed to go above 60°F. Iris need lots of water and cannot withstand dry soil conditions. Plant the bulbs shallow in deep flats. Late varieties or small sized Iris bulbs should be grown more slowly at about 45° to 50°F. until about two weeks before blooming time when the temperature may be raised to 60°F. days and 55°F. nights. The latest storage experiments apparently show that 8-10 weeks at 48 degrees is the best precooling period for late varieties—White Excelsior, Golden Harvest, Van Vliet, Imperator, Prof. Blau. These varieties do not respond in the Wedgewood precooling period of 4 to 6 weeks at 48°.

NARCISSUS KING ALFRED

Plant all Narcissus bulbs as soon as received. Bulbs should be grown at 48° F until the shoots are 2 to 3 inches long at least. It does not hurt them to be left in much longer. Precooled King Alfred may be put on the bench as soon as they are 3 inches long. Grow at 60° F for three weeks and finish at 65° F. Narcissi like well drained soil, but water when heavy foliage growth is in crop. November 28 should be about the proper date to set precooled stock on the bench from the bulb cellar or cold frame. Regular stock of King Alfred should follow 2 to 3 weeks later, continuing with other varieties as their foliage indicates on forcing types.

We recommend treating all hardy Narcissus such as King Alfred and especially the Bicolors, by dusting Tersan or Arasan on the bulbs at approximate rate of 1 lb. per 2500 bulbs for the prevention of basal rot in Narcissus, and for more even plant growth. Tersan or Arasan is obtainable in units of 8 oz., 4 lbs., 25 lbs. and 100 lbs.

HYACINTHS

Unpack Hyacinths in trays at once and store dry in well-ventilated place—55° F is best.

For February flowering store at 60°-65° F and bulbs should not be planted until middle of October.

For later plantings up to January bulbs should be stored in trays in a dry warm place at a temperature of 70° but not higher.

Hyacinths if not planted immediately should be stored at 70° F in a dry place. Delayed planting is permissible for getting quality blooms late. Grow at 50° F in storage until the flower bud is entirely out of bulb at which time transfer to greenhouse for growing on gradually, increasing the temperature up to 70° F over a period of two weeks.

CROFT LILY FORCING

The Croft lily bulbs which we ship are precooled and should be planted immediately on arrival, with exception of some Croft Lilies we ship to the coastal areas of Washington, Oregon, and California where some growers pot them for frame growing immediately after the bulbs have been harvested. Where bulbs are not precooled they require about 180 days of growing to bloom them for Easter. Pot in a well drained soil mixture and grow at 60° temperature nights and days for blooming approximately in 125 days. In the South only 110 days are required.

It is usually easier, and cheaper, to hold a plant back by running temperatures cool the last two weeks than to run the risk and expense of having to use high temperatures and the spoilage envolved due to late timing.

Lilies keep well in cool temperatures as long as 2 to 3 weeks. By growing them at a steady 60 degrees they will progress rapidly without loss of buds.

After receiving bulbs from us figure the number of days you have from potting to the time you wish to sell. You will find more than enough time to make Easter.

Buds should be about an inch long 6 weeks before Easter. If your plants show longer buds than this 6 weeks before you wish to sell them, drop the temperature slowly, as a sudden change might check them, and make them very slow to respond to temperature later. If the buds are not quite visible raise the temperature to between 60 and 75 degrees day and night. At 75 degrees they will come into bloom from the bud stage being just visible in about 4 weeks. One can judge from week to week the progress of growth, and consequently how to regulate the temperatures during the last few weeks. Flower buds should be turned down or turning down at least 3 weeks before Easter. Gradual changes are the best and safest way to handle the crop. Water more frequently if temperatures are raised and never grow at above 75 degrees during the days. Higher temperatures than this only makes the plant respire faster, stretch more but bloom no sooner. Often higher temperatures cause loss of foliage and the blasting of buds.

HOW TO GROW SHORT AND EVEN LILIES

1. Bright houses are of great help. Every florist knows that shading will stretch plants. Therefore, have clean glass and give the plants enough room as they develop. Crowding will shade and stretch plants so avoid crowding.

2. Water wisely! Too much will promote soft tall growth, too little and bud blast will result. Don't over water and as precaution from root rot trouble use a dip of 2½ oz. Terrachlor and 2½ oz. Fermate in 10 gallons water for 15 minutes and plant.

3. Plant the bulbs exactly the same in all pots. 1 inch from the bottom of a 5 or 6 inch pot is a good depth. Easter Lilies are stem rooters and feeders particularly. Fill each pot to the same height with dirt. Thus later when the pot is watered and filled say with ¾" of water each plant will be receiving the same quantity of water.

4. Excessive nitrogen in the high-nitrogen series induces the development of short plants with dark green leaves. Low nitrogen induces tall plants with light green leaves. Low nitrogen plants will be 50 per cent taller than high-nitrogen plants. High pH tends to increase plant height at high nitrogen and decrease height at low nitrogen. In general, high pH helps to produce a more desirable type of plant.

WHERE LEAF SPOT HAS BEEN A PROBLEM

Keep the soil pH as close to 6.5-7 as possible. Usually leaf spot occurs with acid soil conditions tying up nitrogen. Add Limestone to pots and use sodium nitrate, 2 lbs. in 100 gallons of water. Water every 10 days with this solution at night. Do not use this solution when pots are abnormally dry or burning might occur. Use no other fertilizer. Hydrated Lime may be used in place of ground limestone but it is more subject to burning and should be used more sparingly. When mixing original potting soil the addition of 6 ounces of Dried blood to 3 bu. of soil helped avoid leaf spot at Penn. State.

ERABU

The most reasonable priced lily for cut flowers. End of September planting at 60 degrees will flower end of January. Successive plantings through the winter will furnish spring and summer cut flowers.

GIGANTEUM

Superseded by the Croft lily for Easter pot plants. Fine for cut flowers for summer.

ACE LILY

Culture same as Croft but require approximately two weeks longer to finish. Size for size will produce more flowers than Croft. The plants are slightly smaller and require less space on the bench. Increasing demand each year utilizes entire supply.

Hyacinths

All January and February forcing should take place in darkness until the sprouts reach about 4 inches growth. Later in season the sprouts will have reached this height outside or in the bulb cellar and can therefore be placed directly on the bench in the greenhouse. If you wish Hyacinths for Easter or later keep bulbs in warm dry place and plant December to middle of January. Never bring in Hyacinths until buds are visible and Bulbs well rooted.

BLUE

Bismarck. Bright light blue. For early pots. Start to bring in December 22nd.

A FIELD OF CROFT LILIES

Vaughan's Easter Lilies

Overall quality of our lily bulbs has been improving consistently from year to year and our percentage of the total market has been increasing. In 1958 for the first time we supplied over 1 million Vaughan Croft and Ace lilies.

At the same time we have been able to concentrate our grower sources so that instead of more than 100 growers, from whom we had to buy in order to obtain enough bulbs for our customers, we now obtain more than 80% of our requirements from 4 contract growers who have the latest equipment for planting, treating, packing and in general caring for their bulbs in the right way and at the right time.

With their present equipment it is possible to dig and plant faster, making a more uniform forcing crop, for example.

Vaughan Ace lilies have a few more flowers than Croft, the foliage is a darker green and shorter, and the flowers face better. Generally speaking they require a little more heat to force on time. They can be grown closer together because of the shorter foliage. They are considerably more resistant to the root rots.

CROFT LILIES WEST COAST GROWN

Our bulbs will be generously graded with a double check of a minimum weight requirement per case. All Vaughan's bulbs will be from fields inspected by us twice during the growing season. Packing is done with our supervision and per our specifications.

Our bulbs will be cooled properly for easy forcing in 120 days at 60 degrees with maximum bud count.

CROFT

From Vaughan's Selected Contract Growers

Our representative field inspects both Spring and Fall and supervises packing and proper cold storaging on all west coast grown Croft Ace and Estate Lilies.

GEORGIA LILIES FLORIDA GROWN

Georgia lilies are growing in popularity every year because of their free-flowering qualities. Our stocks are clean, free from virus. They make fine cut flowers. Small sizes can be used, especially for spring flowering, planted in January or February. Some florists are using Georgias for Easter pot plants where a tall plant can be sold. They are very easy to force on time.

A very free flowering type. Georgia bulbs do not grow into single nose large sizes. It grows tall plants in the greenhouse and is fine for cut flowers. It has been relatively free from mosaic. Requires 15 days longer to bloom than Creoles. Grow cool.

	Per Case
6-7½ inch 300 bulbs per case	$55.00

FLORIDII OR CREOLE LILIES GROWN IN FLORIDA

These are not as free flowering as the Georgia, but they can be flowered as early as December. They need lots of light and air in the north to prevent bud blast.

We buy from only the cleanest fields that we inspect at least twice during the growing season.

Give Creoles plenty of space and light. Lack of light has been found the cause of bud blasting and splitting in recent experiments.

MISCELLANEOUS BULBS

IRIS—Wedgewood

The best for early forcing. Standards blue, falls lighter blue.
EARLY FORCING: Vaughan's American grown bulbs have been heat cured, starting five days after harvest, for ten days at 90°, followed by two to three weeks storage at 65°-70°. This important care given these bulbs eliminates grassiness and promotes the earliest forcing. Bulbs are ready for precooling about September 1st, these are precooled for six weeks at 48°. Generally the 10 ctm. size is recommended for early forcing size. If you do not have facilities for this, we will precool them for you and ship about Oct. 15th.

CALADIUMS

Vaughan's Special Fancy-Leaved

The following are 10 of the most popular varieties. Please send for descriptive folder in color for all other available varieties.

CANDIDUM. Fine Easter variety and very popular. Leaf snow-white with green veins and network; narrow green border. Ours is the true Candidum.

CRIMSON WAVE. New. Large, deep green leaf with crinkled, transparent crimson or scarlet center and many crimson spots toward edge. Strong grower.

ITACAPUS. Entire leaf dark red of a rust shade; narrow border with red dottings. One of the most beautiful Caladiums in existence. Known also as "John Hachmeister."

JOHN PEED. Shining bright metallic red center on moss-green ground. Very fine.

MRS. F. SANDER. Roundish, dark green leaf heavily blotched transparent deep rose.

MRS. W. B. HALDEMAN. Medium leaf of bright pink with narrow green edge. Very fine and popular.

POECILE ANGLAIS. Dwarf. Wavy leaf of deep crimson, bordered metallic green. One of the best.

RED FLARE. New. Similar to Scarlet Pimpernelle, but blotched with two shades of green. A fine pot-plant.

STOPLIGHT. Leaf shining crimson with bluish tints. The best red Caladium of all.

THOMAS TOMLINSON. Bright crimson center and blotches; narrow green edge. Makes many leaves.

Narcissi—American, French and Holland Grown

KING ALFRED

All Dutch cases are put on well ventilated ships so that you will receive the bulbs in good condition. Our New York branch sees that the bulbs are cleared through customs promptly.

Our American-grown bulbs are grown in Oregon, and Washington where narcissi bulbs grow best. After digging, our bulbs are stored in temperatures that have been found most satisfactory by eminent English and Dutch experimenters. This hastens the flowering period and keeps the bulbs firm.

For very early forcing we recommend American grown Pre-cooled King Alfred.

Asters in the Greenhouse

The off-season production of Asters as a greenhouse crop is proving most profitable. While Asters can be flowered all year on a schedule similar to the one used for "Mums," it is as an early Spring and Summer cutflower they are at their best.

Requirements are simple: a night temperature of 50° and the use of additional lighting from the seedling stage until plants are 20 to 24 inches tall. We recommend the use of 60 watt bulbs with reflectors spaced 5 ft. apart (the lighting arrangement as you have it set up for Mums will do nicely). Additional lighting must be given from September 1st to May 1st, or until the first flowers show color, and from sunset to 10:30 P.M. At other times the natural light is sufficient.

The Giant Incurved Aster has proven most popular for this purpose, with heavy demand for the White, Rose Pink and Shell Pink. Use sterilized soil and space plants 8 x 8 inches.

A portion of Ohio State's recommend growing schedule follows and is readily adaptable where the suggested 50° night temperature is maintained.

Aster Giant Incurved

A strain of large, full-double flowers on long stems. Highly resistant to wilt. Exceptional as cutflowers.

Azure. Clear light blue.

Phlox Pink. Soft peachblossom pink.

★**Pure White.** Outstanding.

Purple Ball. Bright purple color.

★**Rose Pink.** Rich deep rose.

★**Shell Pink.** Soft shell pink. Especially fine for flowering under lights.

Each of the above, trade pkt., **$1.75;** ¼ oz., **$3.20;** oz., **$9.60.**

Browallia

(65,000 seeds per oz.)

★**Speciosa Major Blue.** Flowers the size of large single violets and a rich deep blue. Sow early for cutting or pot plants at Christmas. Trade pkt., **$1.20;** 1/16 oz., **$3.60;** ⅛ oz., **$6.60;** ¼ oz., **$12.00.**

Centaurea Cyanus

(6,500 seeds per oz.)

SUPER GIANT Cornflower

The flowers of these strains are large, fully double and colors intensified. Long stems for cutting.
May also be sown out of doors just before freezing for early spring blooming.

Black Boy. Blackish maroon.

Red Boy. Ruby red.

★**Blue Boy.** Rich deep blue, very large flowers.

★**Rosie.** Rich rose with salmon overcast.

★**Pinkie.** Deep pink.

★**Snowman.** Best white.

Vaughan's Mixture of Super Giant Varieties.

Each of above, Trade pkt., **25c;** oz., **65c;** ¼ lb., **$2.20;** lb., **$6.50.**

Begonias—Fibrous-Rooted

(30,000 seeds per 1/32 oz.)

Because of their being adaptable to all growing conditions, Begonias are rapidly forging ahead as one of the most popular pot plants. Do equally well in the home, where light and heat conditions are not at their best, also as bedding plants for the partially shaded spot in the garden.

Monthly sowings from August to March will insure ample supply of plants to take care of customer needs.

Begonia seedlings will burn if exposed to full sun. Recommend the use of a good, well shaded house high in humidity.

DWARF, 6 TO 8 INCHES

★**Pink Pearl.** Of dwarf, compact habit—6 to 8 inches high, this Begonia is one of the very best for pot culture. The plants form perfect balls and the flowers are well above the fresh green foliage. We recommend it. Trade pkt., (2,000 seeds), **$1.50.**

★**Red Pearl.** Same as above in type, and blooming habit. Color, brilliant dark scarlet. Trade pkt., (2,000 seeds), **$1.50.**

Adeline. (Improved Darling). Very dwarfest habit; bright pink flowers and green foliage, very attractive.
Trade pkt., **$1.25;** 1/64 oz., **$3.25;** 1/32 oz., **$6.00.**

Ball Deep Rose. Identical in habit to Adeline from which it was selected. Under winter and spring conditions the color is a deep rich rosy red which gradually fades to bright luminous pink with the coming of warmer weather.
Trade pkt., **$1.50;** 1/64 oz., **$3.25;** 1/32 oz., **$6.00.**

Ball Red. Fairly dwarf in growth and of uniform, perfectly rounded habit. The plants are literally covered with medium large flowers of the brightest scarlet red imaginable. Much more brilliant and intense than King of the Red or Luminosa.
Trade pkt., **$1.50;** 1/64 oz., **$3.25;** 1/32 oz., **$6.00.**

Ball White. A good white for pot-plant use.
Trade pkt., **$1.50;** 1/64 oz., **$3.00;** 1/32 oz., **$5.50.**

Dwarf Luminosa. Bright scarlet, free flowering. Excellent pot plant.

A sowing made in the Fall and grown on cool will provide excellent plants for spring combination work.

Nana Compacta (Dwarf) **Triumph Mixed.** 8 in. Trade pkt., **40c;** ¼ oz., **$1.20;** oz., **$3.60.**

Annual Larkspur

(8,500 seeds per oz.)

Larkspur does not germinate well in hot weather and we recommend chilling seed for several days in an ice box (45°-50°) if sowing must be made in summer heat.

For growing under glass to follow late Mums, we recommend a planting in late December to early January, and band or pot the seedlings. Plants are spaced 10 x 10 in. on raised benches and grown at 45°-50°.

Direct ground sowing will bring Larkspur into crop in early spring. From an August 15th to September 15th sowing, seedlings will be of sufficient size to winter over if given a light mulch. Another method is to sow seed in late October to November so it will not germinate until early the following spring. Care should be made to select a location with good drainage.

REGAL—BASE BRANCHING

Retains the desirable height and basal branching habit of the Giant Imperials but with Delphinium-like florets on long, thick spikes. Vigorous and early.

(About 24,000 seeds per oz.)

Carl Risch of **Indianapolis, Indiana,** with **Vaughan's Super Maple Leaf Pansies** grown in 3 in. square **Val-Peat Pots®.** Note large flower and healthy root system.

Seed sowing was made around August 15th, transplanted into **Val-Peat Pots®** October 1st. To winter over, he covered bottom of cold frame with one inch sand into which pots were plunged and covered frame with sash. Nice plants were ready for April 1st to 15th sales.

Pansies in Mixture

★**Pansy Vaughan's Swiss Master Blend®.** The newest in a long line of "Pansy Firsts." Flowers of good size and texture in a brilliant array of color with a depth of tone never before seen in Pansies. Strong stems keep the flowers well above the green foliage. Compact plants, early to bloom. Truly outstanding. Trade pkt., **$1.00;** ⅛ oz., **$2.75;** ¼ oz., **$5.00;** oz., **$15.00;** ¼ lb., **$50.00.**

★**Vaughan's Super Swiss Giant Mixture.** Fine large flowers, 3 inches or more in diameter, of good substance, perfectly round, with thick overlapping petals of a rich velvety texture on strong stalks well above the luxuriant foliage. Excellent for cutting; well suited to the garden border and for basket or combination work. Trade pkt., **75c;** ⅛ oz., **$1.75;** ¼ oz., **$3.25;** oz., **$10.00;** ¼ lb., **$30.00.**

★**Vaughan's Super Maple Leaf Mixture "Canadian Giants."** A selection of the distinct variety Maple Leaf Giants which we introduced some years ago; having large leaves of a rich dark green and flowers of gigantic size and heavy substance, with good stems, in a beautiful color range. Plants of compact and sturdy growth. Trade pkt., **75c;** ⅛ oz., **$1.75;** ¼ oz., **$3.25;** oz., **$10.00;** ¼ lb., **$30.00.**

★**Color Carnival.** An American bred strain of exceptional quality and substance. A magnificent color range, heavy in reds and scarlets. Flowers are large, plants compact yet vigorous. All blooms are blotched giving a great brilliancy and depth of color. Outstanding for bedding use whether for plant sales or in the home garden. Trade pkt., **$1.50;** ⅛ oz., **$3.75;** ¼ oz., **$7.00;** oz., **$22.00.**

★**Roggli Elite Mixed.** A blend of attractive colors, especially recommended for its large flower and uniformity of color and habit. Red tones predominate with many flowers attractively blotched. Outstanding.
Trade pkt., **$1.50;** ⅛ oz., **$3.75;** ¼ oz., **$7.00.**

★**Amsterdam Giant.** A very early free flowering strain with a long season of bloom. Flowers are large, 3 to 4 inches across, and the colors bright. Coming into flower early and showing a great resistance to heat, it has proven a very popular "Basket Pansy" in the European Market, for which it was especially bred, also on the East Coast wherever grown.
Trade pkt., **75c;** ⅛ oz., **$1.80;** ¼ oz., **$3.00;** oz., **$10.00.**

★**Jumbo Mixed.** Extra large and early; long stemmed flowers. An outstanding favorite in the South. Trade pkt., **85c;** ⅛ oz., **$1.95;** ¼ oz., **$3.30;** oz., **$11.00;** ¼ lb., **$40.00.**

Petite Strain—All America Bronze Medal 1958

(Double Dwarf French)

This new class of Marigolds fills a much wanted need for an extra dwarf, uniformly even, early and free flowering strain for borders and mass effects.

Bred to remain dwarf under conditions where most Marigolds grow rangy, tall and wild.

Particularly desirable for the flat grower who has blooming plants to show his customer. Compact growth, 6 inches tall and 10 inches wide, free flowering, often 50 blooms per plant in full flower at one time. An ideal edging plant.

Petite Gold. **Petite Harmony.** **Petite Orange.**

Petite Yellow. While not in the All America Trials, this is now available and completes the color range.

Petite Mixed. Our own formula-blend which includes all the above colors.

Each of the above; trade pkt., **35c;** ¼ oz., **$1.35;** oz., **$4.00.**

F-1 and All Double Petunias growing in 3 inch square Val-Peat ® Pots.

★F-1 Hybrid Petunia Varieties

(About 6000 seeds per 1/64 oz.)

The F-1 Hybrid Petunia combines freedom of bloom and strong sturdy plants with a compactness of habit that makes them especially desirable to the pot and bedding plant grower. Color lines are uniform and the flowers are of good size and substance. The base branching plants average 12 to 18 inches in height.

1959 PREVIEW OF NEW PETUNIAS

To be featured in our 1959 list—you will want them for your bedding plant customers. Order now and be sure of your supply. Bright, interesting new varieties that are sure to sell.

Aristocrat. (F-1 Grandiflora). Well fringed flowers of pure white with contrasting yellow throat. Early flowering, freedom of bloom and a dwarf compact habit combine to make this the finest of whites. A Vaughan Introduction.

Pink Desire. (F-1 Grandiflora). A clear bright pink. The ruffled flowers are 100% grandiflora and come into bloom early. Very uniform and compact in its growing habit, the plant will attain a height of 12 inches. Exceptionally fine for bedding and pots, being extremely free flowering. A Vaughan Introduction.

Scarlet Lustre. (F-1 Grandiflora). Brilliant scarlet-red highlighted by a rich yellow throat. Large flowers with waved and ruffled edges. Plant weakness, so often found in the red grandifloras, has been corrected and this husky F-1 hybrid is not only beautiful but vigorous and generous of bloom.

Each of the above 3: 1/2 trade pkt., **$1.75;** trade pkt., **$3.00;** 1/128 oz., **$5.50;** 1/64 oz., **$10.00;** 1/32 oz., **$19.00;** 1/16 oz., **$36.00;** 1/8 oz., **$69.00;** 1/4 oz., **$129.00.**

Sabre Dance. (F-1 Grandiflora). Huge bright crimson and white flowers, 4 1/2 inches across, mostly with white star pattern. Ruffled, extra large flowers borne on dwarf, compact, very vigorous plants. Exciting, new and different.
1/2 trade pkt., **$1.35;** trade pkt., **$2.50;** 1/128 oz., **$4.50;** 1/64 oz., **$8.00;** 1/32 oz., **$15.50;** 1/16 oz., **$30.00;** 1/8 oz., **$57.00;** 1/4 oz., **$108.00.**

Satellite. (F-1 Multiflora). Out of the space-age comes this new interesting Petunia. Brilliant rose with perfect white star. Dwarf compact plant habit, vigorous grower and very free flowering.

PETUNIA GIANT-FLOWERING SINGLE

(About 2,600 seeds per 1/64 oz.)

Flowers measure from 5 to 7 inches across.

DWARF CALIFORNIA GIANTS

★**Master Blend®.** The best strain of giant-flowered Petunias for pot culture and bedding. Flowers of largest size appear on dwarf plants. Blooms when plants are very small, so salable plants are quickly produced. They are bushy, 12 inches high and bear ruffled flowers freely. Warm colors predominate. 1/2 Trade pkt., **$1.00;** Trade pkt., **$1.75;** 1/64 oz., **$3.00;** 1/32 oz., **$5.50;** 1/16 oz., **$10.00;** 1/8 oz., **$19.00;** 1/4 oz., **$35.00.**

Dark Selection. A favorite with many growers and it has given universal satisfaction. Trade pkt., **$1.25;** 1/64 oz., **$2.50;** 1/32 oz., **$4.50;** 1/16 oz., **$8.00;** 1/8 oz., **$14.00;** 1/4 oz., **$25.00.**

★**Extra Dwarf Giants of California.** This strain has been bred to fill the need for a truly dwarf pot Petunia. The color range has also been greatly improved and brightened. 1/2 Trade pkt., **$1.50;** trade pkt., **$1.75;** 1/64 oz., **$3.50;** 1/32 oz., **$6.00;** 1/16 oz., **$11.00;** 1/8 oz., **$20.00;** 1/4 oz., **$36.00.**

RUFFLED GIANTS WITH LARGE-VEINED THROATS

Giants of California Mixed. This is a most superb mixture, not at all to be compared with the seed usually offered. Trade pkt., **75c;** 1/64 oz., **$1.35;** 1/32 oz., **$2.50;** 1/16 oz., **$4.50;** 1/8 oz., **$8.00.**

LARGE SINGLE FRINGED

(About 7,800 seeds per 1/32 oz.)

Flowers 3 to 4 inches across.

Theodosia. Re-selected. Large flowered, fringed, rosy pink with a clearly defined, golden throat. Fine for window boxes. Trade pkt., **85c;** 1/64 oz., **$2.00;** 1/32 oz., **$3.30;** 1/16 oz., **$5.75;** 1/8 oz., **$11.00;** 1/4 oz., **$20.00.**

Fluffy Ruffles. Very large flowers, finely fringed and ruffled. A perfectly balanced mixture of pinks, white, salmon, deep rose, crimson and light blue. Outstanding in our Trials. Trade pkt., **50c;** 1/32 oz., **$2.00;** 1/16 oz., **$3.60;** 1/8 oz., **$6.75.**

Little Giants Mixed. (Ruffled Nana Compacta). 8–12 in. tall. The medium sized, well ruffled and waved, deep-throated flowers continue to keep the plants completely covered. The unusually attractive colors range from deep crimson to white in every imaginable shade. Trade pkt., **85c;** 1/64 oz., **$1.55;** 1/32 oz., **$2.75;** 1/16 oz., **$5.00.**

LARGE SINGLE PLAIN EDGED

(7,800 seeds per 1/32 oz.)

Dwarf Elk's Pride. Re-selected. Velvety violet. Trade pkt., **85c;** 1/64 oz., **$2.00;** 1/32 oz., **$3.30;** 1/16 oz., **$5.75;** 1/8 oz., **$11.00;** 1/4 oz., **$20.00.**

Dwarf Pink Glory. Compact habit, pure flame rose-pink. Trade pkt., **85c;** 1/64 oz., **$2.00;** 1/32 oz., **$3.30;** 1/16 oz., **$5.75;** 1/8 oz., **$11.00;** 1/4 oz., **$20.00.**

Popcorn. Large pure white flowers. Plant is dwarf and compact, retaining its habit throughout the entire blooming season. Very free flowering. Excellent for pot work or bedding. Trade pkt., **$1.50;** 1/64 oz., **$2.75;** 1/32 oz., **$5.00;** 1/16 oz., **$9.50;** 1/8 oz., **$18.00;** 1/4 oz., **$33.00.**

Royalty. The immense ruffled and waved blossoms vary from pure white touched with purple through varying combinations of purple and white to rich self-colored blooms. Often blossoms of all these combinations appear on one plant. Trade pkt., **85c;** 1/64 oz., **$2.00;** 1/32 oz., **$3.30;** 1/16 oz., **$5.75;** 1/8 oz., **$11.00;** 1/4 oz., **$20.00.**

Snow Storm Improved. Flowers are the purest white and the uniformity of the dwarf compact growth is marvelous. Trade pkt., **85c;** 1/64 oz., **$2.00;** 1/32 oz., **$3.30;** 1/16 oz., **$5.75;** 1/8 oz., **$11.00;** 1/4 oz., **$20.00.**

White Cloud. 12 in. A great favorite on account of its dwarf compact habit. Trade pkt., **85c;** 1/64 oz., **$2.00;** 1/32 oz., **$3.30;** 1/16 oz., **$5.75;** 1/8 oz., **$11.00;** 1/4 oz., **$20.00.**

PETUNIA ALL—DOUBLE TYPE

Double Petunias

PAN AMERICAN STRAIN

An American Grown Strain of great brilliance. The flowers are large, 3½ to 4 inches across, full-double and well fringed. Plants dwarf and compact. Recommend pinching for more dwarfness and better branching. Exceptionally fine for pot plants. 2,500 seeds per 1/128 oz.

★**Allegro Improved.** Deep salmon.
★**Caprice Improved.** Bright rose.
Minuet. Orchid-lavender. Shows some variegation.
Nocturne. Deep mid-night purple.
Rhapsody. Deep burgundy wine-purple.
★**Sonata.** Pure white. Fine for Mother's Day.
Each of the above, ½ Trade pkt., **$2.75;** Trade pkt., **$4.50;** 1/128 oz., **$8.50;** 1/64 oz., **$16.00;** 1/32 oz., **$29.50;** 1/16 oz., **$58.00.**
Glorious Mixture. A **formula-blend** of straight colors. We recommend pinching the taller plants to induce better branching and more even dwarfness. Truly an outstanding blend. ½ Trade pkt., **$2.25;** Trade pkt., **$4.00;** 1/128 oz., **$7.50;** 1/64 oz., **$14.50;** 1/32 oz., **$28.00;** 1/16 oz., **$55.50.**

ALL DOUBLE DWARF (Victorious) FRINGED

The well doubled, fringed flowers, averaging 3½ in. across, are freely produced on plants that are bushy and dwarf. An attractive pot plant strain. 10 in. 2,000 seeds per 1/128 oz.

Attraction. Brightest carmine-rose and white combination.
★**Blue Brocade.** True violet blue.
★**Gaiety.** A bicolor, light rose-red with white ground. Lighter in tone than Attraction.
Pure White Improved (Snowball). Pure white.
★**Rosy Carmine Improved** (World Beauty or Pink Perfection). Bright rose, very popular among pot plant growers.
★**Sunset Giant.** Brilliant deep salmon shaded scarlet; full double well fringed flowers. Very bright.
★**White Swan.** The largest white in this All Double group. Flowers measure fully 4½ inches across in its full-double, well fringed form.
All Double Dwarf Giant Fringed Mixed (Victorious). Included in our mixture are separate colors which give you a better balanced color range than usually found in blends of this sort.
Each of the above 8: ½ Trade pkt., **$2.25;** Trade pkt., **$4.00;** 1/128 oz., **$6.50;** 1/64 oz., **$12.00;** 1/32 oz., **$22.00;** 1/16 oz., **$40.00.**

DOUBLE LARGE-FLOWERING

★**All Double Vaughan's Formula Mixture.** A blend of the best All Double Mixtures now available, to which have been added separate colors in the right proportions. ½ Trade pkt., **$2.25;** Trade pkt., **$4.00;** 1/128 oz., **$7.50;** 1/64 oz., **$14.50;** 1/32 oz., **$28.00;** 1/16 oz., **$55.50.**

PETUNIAS—continued

OTHER POPULAR ALL DOUBLES

★**Colossal Shades of Rose Improved.** Giant double blooms up to 5 inches or more across on vigorous compact plants. Containing 80% rose and new salmon shades. Make fine 4 to 5 inch pot plants for Easter, Mother's Day and spring combinations. ½ Trade pkt., **$2.50;** Trade pkt., **$4.00;** 1/128 oz., **$7.60;** 1/64 oz., **$14.45;** 1/32 oz., **$28.00;** 1/16 oz., **$55.00.**

★**All Double Canadian Mixture.** Full double flowers which includes rose, pink, salmon, white and mauve. ½ Trade pkt., **$2.50;** Trade pkt., **$4.00;** 1/128 oz., **$7.60;** 1/64 oz., **$14.45;** 1/32 oz., **$28.00.**

★**All Double America Improved** (Double Small Flowering). A rich rose-pink slightly deeper in color than the original with flowers of larger size coming more uniformly full-double. Extremely free flowering; excellent for bedding and cutting. ½ Trade pkt., **$1.35;** Trade pkt., **$2.50;** 1/128 oz., **$4.50;** 1/64 oz., **$8.00;** 1/32 oz., **$14.50;** 1/16 oz., **$28.00;** 1/8 oz., **$55.50.**

Saintpaulias

(AFRICAN VIOLET SEED)

Hybrids. Flowers are in varied shades of blue, lilac and pink; the plants dwarf, bushy and compact with leaves of dark green. Trade pkt., **$1.50.**

Schizanthus

(50,000 seeds per oz.)

Use Schizanthus flowers in corsages. They are long lasting and make up very attractively.

★**Vaughan's Dwarf Masterpiece.** The plants grow dwarf and compact, making them most suitable for pot culture. The color range of the flowers, which are of good size, is the most varied, from light pink and rose, to a pleasing dark violet, with conspicuous blotches. Trade pkt., **60c;** 1/16 oz., **$1.10;** 1/8 oz., **$1.80.**
Wisetonensis Monarch Strain. The finest strain of large flowered hybrids. Trade pkt., **60c;** 1/8 oz., **$1.35;** 1/4 oz., **$2.20;** oz., **$6.60.**
Dr. Badger's Hybrids. Is compact, grows 8-10 in. high. Brilliant colors. Trade pkt., **35c;** 1/4 oz., **$1.00;** oz., **$3.00.**

Snapdragon

(About 220,000 seeds per oz.)

Tall Rust Resistant Strains 2½ ft.

We have revised our Rust Resistant Snapdragon listing in line with breeding work being done by various introducers.

Appleblossom. Rosy pink, white tube.
Brilliant Rose. True rose pink.
Campfire. Luminous scarlet.
Cherry Rose. A deep brilliant cherry rose.
Copper Queen. Burnished copper.
Loveliness. Pure soft rose pink.
Padre. (Crimson). Glossy crimson, dark stems.
Pink Sensation. Pure pink, frilled flowers.
Red Cross. Glowing velvet-crimson.
Rosalie. Rich deep rose with underlying tone of topaz or amber.
Shasta (Alaska). Pure white.
Yellow Jacket. (Canary Yellow—Yellow Giant). Deep canary yellow.
Vaughan's Tall Rust Resistant Mixture. Our own formula-blend in just the right color proportions.
Each of the above: Trade pkt., **30c;** 1/4 oz., **$1.00;** oz., **$3.00;** 1/4 lb., **$9.00.**

SALVIA Splendens America

Salvia Splendens

(7,500 seeds per oz.)

Sow seed in flats and give bottom heat, as this helps germination of seed considerably. **New crop available about November 1st.**

We have divided this family into three groups. Dwarf, Medium and Tall, listing them according to their flowering dates, the earliest in each group being first.

DWARF

Fireball. An extra early, base branching Salvia coming into flower a week to ten days before St. John's Fire. Of dwarf, compact habit, it is exceptionally fine for pots and especially early blooming for flats. Trade pkt., **$1.50;** ⅛ oz., **$2.25;** ¼ oz., **$4.00;** oz., **$12.00.**

★**St. John's Fire.** The most popular early dwarf red. Our own reselected strain coming into flower early, while plants are but a few inches tall, remaining in flower until frost. The bright scarlet spikes stand densely and rigidly upright above the foliage on uniformly compact plant. Trade pkt., **90c;** ¼ oz., **$2.75;** oz., **$8.50;** ¼ lb., **$25.00.**

Blaze of Fire. Early and free flowering, coming into bloom shortly after St. John's Fire. Trade pkt., **85c;** ¼ oz., **$2.50;** oz., **$7.25;** ¼ lb., **$22.00.**

MEDIUM

Harbinger (Masterpiece). The earliest of this group to flower. Scarlet, 16 in. Trade pkt., **75c;** ¼ oz., **$2.00;** oz., **$6.00;** ¼ lb., **$18.00.**

★**America.** (Globe of Fire.) The favorite of many growers. Plants grow about 18 inches high, in uniform dense globe-shaped bushes. Trade pkt., **60c;** ¼ oz., **$1.50;** oz., **$5.00;** ¼ lb., **$15.00.**

Rose Flame. Rich coral pink. Trade pkt., **75c;** ¼ oz., **$2.00;** oz., **$6.00.**

TALL

Clara Bedman (Bonfire.) Erect habit, the old stand-by. Dark green foliage. Trade pkt., **60c;** ¼ oz., **$1.50;** oz., **$5.00;** ¼ lb., **$15.00.**

Splendens Type (Scarlet Sage). Tall growing, scarlet. 24 to 30 in. Trade pkt., **50c;** ¼ oz., **$1.25;** oz., **$4.00;** ¼ lb., **$12.00.**

Thunbergia

(1,100 seeds per oz.)

Mixed. Fine climber or trailer for window boxes and hanging baskets. Flowers in shades of yellow, buff and orange, black centered. Trade pkt., **30c;** ¼ oz., **60c;** oz., **$1.75.**

STREPTOCARPUS Wiesmoor Hybrids

★ Streptocarpus (Cape Primrose)

Wiesmoor Hybrids. The flowers are well fringed and crested, very large, 4 to 5 inches across. Unlike the older strains, the leaves of this new one are smaller, making it more adaptable to potting. The color range is most complete, pink, in all its shades and variations, deepest red, blue shades and white with dark blotches.

The plants flower abundantly and early. January seedlings will bloom by June. By successive sowings from October to March, blooming plants will be available all year round for sale or cutting.

Seeds are small and require but very little covering. For soil, use the same as that in which Gloxinias thrive. At its best in the ordinary greenhouse and should be grown rather cooler than Gloxinias. Trade pkt., **$1.25;** 3 Trade pkts., **$3.25;** 5 Trade pkts., **$5.25.**

TORENIA Fournieri

★ Torenia

(375,000 seeds per oz.)

Fournieri. Makes a fine pot plant for Mother's Day sales. Also good in combination baskets. Flowers blue with dark blotches on lip. 12 in.

Fournieri White.

Each of the above: Trade pkt., **60c;** ⅛ oz., **$1.25;** ¼ oz., **$2.25.**

Forcing Snapdragons

The final criterion of a "good Snap" is its ability to produce a profitable crop at a minimum of cost. The **cost conscious** grower is learning more and more to appreciate savings effected by the use of the latest Hybrid introductions which respond so well to direct benching of small seedlings, single stem culture with closer spacing, improved vigor of plant, increased uniformity and cleaner growth as well as lower temperature tolerance.

Efficiency in Snapdragon Varieties for Greater Profit

Yoder Bros., Barberton, Ohio

The classification of Snapdragon varieties should be based on their response to a given temperature.

Many of our so-called winter flowering varieties are outstanding in the spring program. Many of the so-called spring varieties can be flowered in winter if the higher proper temperature and longer timing environments are provided. The summer, high temperature group, (we call them slow or hot weather varieties) requires the higher temperature for maximum performance.

Given night minimums of 46° the first, **fast group** tolerates the low temperature and produces high quality to most efficient advantage. The second, **intermediate group** flowers very slowly and frequently unevenly. The third, **slow group** (we call them hot weather varieties) often goes blind or becomes extremely vegetative.

Given night minimums of 50° the **fast group** flowers rapidly. Under low light conditions spikes are often too short and non-continuous. With the brighter days of early spring, performance is markedly improved. The **intermediate group** requires this minimum for winter flowering and tolerates well somewhat higher temperatures for spring crops. The **slow group** (we call them hot weather varieties) continues to vegetate.

Given night minimums of 54° and higher the **fast group** is forced too rapidly with premature flowering on shortened, thin stems. The **intermediate varieties** also mature too rapidly. Short spikes and lowered quality are the result. The **slow group** (we call them hot weather varieties) elongates uniformly and achieves maximum performance with this environment.

The most efficient snapdragon programs utilize the **fast varieties** for flowering during the winter and spring.

Growing the **intermediate varieties** during these periods is more costly in terms of growing time and required temperature.

The **slow group** (hot weather varieties) is best restricted to summer high temperature flowering.

The recommendations are based on bench culture.

Forcing Snapdragons

(2,000 seeds per trade packet.)

SECOND SOWINGS are very important. These should be made between August 15th and October 1st for Spring Flowering, and the sowing date depends on whether you grow them Single Stem or Pinched Crop. The Hybrid varieties are outstanding for this purpose.

"Inbred" or self-pollinated sorts are marked; all others are true F-1 Hybrids

Bloom dates are based on reports from greenhouses in Chicago and Middle West Areas. We have classified as Fast (F) those varieties which show best results in November-December and on through the Spring months. The Intermediate (Inter.) varieties are those proving most satisfactory when flowered from January through April and May. Varieties marked HW are those especially developed for Summer (Hot Weather) flowering in the greenhouse from May through August and into September. No attempt should be made to flower these varieties when days are shorter and light intensity has decreased.

Conditions will vary with locality and we suggest you check for a couple of years and set up your own chart showing best performance under your own conditions.

LAVENDER

★**Lavender Lady.** Inter. Deep rosy lavender shade, excellent spikes and stem. ½ Trade pkt., **$2.00;** Trade pkt.,**$3.50.**

Windmiller's Lilac. (Inbred). Inter. A true orchid.
Trade pkt., **$2.00.**

RED

★**Man-O-War.** F. Intense red with a lightly suffused yellow lip. Very stocky, clean, uniform growth. Large florets with compact placement. Valuable for Christmas season. Recommended for late December through mid-April. Much earlier, more uniform and shorter than Navajo. Trade pkt., **$3.50.**

★**Navajo.** Inter. A bright true red. Should be sown a week earlier than other varieties for winter.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Priscilla Ann. F. Velvety crimson.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

LIGHT PINK

★**Christina.** Inter. The best light rose pink hybrid, slightly deeper in color than Mary Ellen and with larger florets. A vigorous medium early variety with almost no side growth.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

★**Native Dancer.** Inter. A light rose pink with the greatest degree of vigor yet observed in mid-winter snapdragons. Very long spike on clean, strong stems. Compact placement of large florets. About 10 days later than Rosebud, supplementing it well in the same sowing and benching program. Recommend for mid-December through early May.
Trade pkt., **$3.50.**

★**Rebecca.** F. **(New).** A soft rose pink hybrid which in color is slightly lighter than Christina and earlier. Clean strong stem, almost no side growth, large florets closely set on stiff heavy stem. Combines a new color with characteristics that have made Christina so popular.
Trade pkt., **$3.50.**

★**Whirlaway.** F. Large florets, close spacing, long spike; a little deeper color than Mary Ellen.
Trade pkt., **$3.50.**

Chevy Chase Pink. Inter. Bright pastel pink, shade darker than Maryland Pink.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Mary Ellen. Inter. Light rose pink.
½ Trade pkt., **$1.50;** Trade pkt., **$2.50.**

Maryland Pink Improved. F. Light creamy pink.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Nashua. F. Light rose pink. Two weeks earlier than Rosebud. Large ruffled florets are compactly borne on hard, clean stems. Shatterproof.
Trade pkt., **$3.50.**

Rosebud. F. Soft pastel pink for Spring.
Trade pkt., **$3.50.**

Top Flight. F. Light rose-pink. Similar to Christina; slightly earlier.
Trade pkt., **$3.50.**

FORCING SNAPS—continued

MEDIUM PINK

★**Anne Marie.** Inter. Clear medium pink, slightly deeper than Christina. Medium sized florets closely set on stiff heavy stem; minimum of side growth. A little later than Christina but earlier than Libby.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Spartan Rose. Inter. Medium deep rose, flowers with Margaret.
½ Trade pkt., **$1.75;** Trade pkt., **$3.00.**

Summer Jewel. H.W. A rich deep pink, a shade darker than Rockwood's Summer Pink and coming into flower five to seven days later. Vigor, uniformity, stem strength and spike length generally improve that variety. Compact floret spacing. Will not shatter. Trade pkt., **$3.50.**

YELLOW

★**Broker's Tip.** Inter. Deep yellow, medium sized florets, little or no side growth. Flowers after Seabiscuit and because of excellent color holding quality and vigorous stocky growth it is well adapted for continuing its flowering later into the Spring.
Trade pkt., **$3.50.**

★**Patricia.** F. Medium sized florets of rich yellow with full deep yellow lower lip are borne on long spikes. Vigorous grower and one of our most popular yellows for greenhouse and cloth-house culture.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

★**War Admiral.** F. Outstanding in vigor, uniformity and spike formation. In bloom about two weeks after Swaps. Closer spacing and somewhat larger florets. Trade pkt., **$3.50.**

★**Golden Spike.** Inter. Rich golden yellow with long stems and flowering spikes. Flowers in January from mid-July sowing.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Dark Star. H.W. Deep clear yellow. Uniformity and earliness with distinct vigor give this variety top place in the Hot Weather Yellows. Growth clean, floret spacing compact. Is not subject to high temperature burn. Trade pkt., **$3.50.**

Goldrush. F. Deep Jonquil yellow.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Potomac Yellow. H.W. Medium yellow. For summer flowering.

YELLOW—Continued

Seabiscuit. F. Clear yellow. Follows Swaps and War Admiral.
Trade pkt., **$3.50.**

Swaps. (New) F. Comes in two weeks earlier than War Admiral. Flowering is uniform on clean hard stems. A true winter flowering Yellow. Trade pkt., **$3.50.**

WHITE

★**Albion.** F. Paper white, 10 to 14 days later than White Knight from same sowing and benching dates. Little heavier growth. Very valuable in maintaining a continuity of paper white when grown with White Knight. Clean growth, uniform long spikes.
Trade pkt., **$3.50.**

★**Snowman.** Inter. Pure white with no suggestion of ivory.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

★**White Knight.** F. Pure paper white. Compact spikes of well placed florets. Earlier than Snowman and Albion.
Trade pkt., **$3.50.**

★**Crystal White, Vaughan Strain.** (Inbred). H. W. Pure paper white, good floret spacing on long spike. Will not shatter.
½ trade pkt., **$1.75;** trade pkt., **$3.00.**

Crystal White. Yoder A Strain. (Inbred). H.W. The result of much reselection has brought to the grower a paper white Snap, very uniform in habit with compact floret spacing. Will not shatter.
Trade pkt., **$3.50.**

June Bride. H.W. Pure white. The first F-1 hybrid developed for late spring and summer single stem greenhouse use. A true "hot-weather" Snap. Hard, clean stems. Sow from January through June only. ½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Potomac White. H.W. White. For summer flowering.
½ Trade pkt., **$2.00;** Trade pkt., **$3.50.**

Spartan White. Inter. Pure white, shatter resistant.
½ Trade pkt., **$1.75;** Trade pkt., **$3.00.**

Tommy Armstrong. (Inbred). Inter. Good white, closely spaced florets. Trade pkt., **$3.00.**

White Skies. H.W. A pure white Summer hybrid; quite tall and vigorous. Highly shatter proof.
Trade pkt., **$3.50.**

IVORY WHITE

★**Apollo.** Inter. Ivory white flowers, large and more vigorous than Margaret.
Trade pkt., **$3.50.**

★**Citation.** F. Very large ruffled florets of ivory white compactly spaced on long spikes. Uniform, vigorous grower. Comes in before Margaret, Apollo or Twenty Grand.
Trade pkt., **$3.50.**

★**Margaret.** (Inbred). F. A winter-blooming ivory white. The stem is exceptionally stiff and there is almost no side growth. The florets are of medium size; last a long time and do not shed.

Snapdragons in Vaughan's Val-Peat Pots®

Snapdragon plants cannot be kept in good condition in a 2½" pot for over 30 days and during warm bright weather the length of time in pots should be shortened considerably.

If you still use this method, instead of benching seedlings direct, **go modern** and plant them in 1¾" square Vaughan's Val-Peat Pots.® This method saves you pot removal, gives faster growth and you will have a better plant with larger leaf area than those in pots.

The Best in Double Stocks

Stocks are easily grown and a profitable cutflower item. Thoroughly sterilize soil and benches before sowing as precaution against root-rot. Seed may be safely sown in our area from mid-July to mid-February. Later sowings tend to show blindness. From an August sowing the first flowers may be cut at Christmas, if given additional lighting (40 to 60 watt lamps spaced 5 ft. apart). Normal flowering for such a planting is January. Successive sowings insure a continuity of bloom.

The Non-Branching or Column Stock is most generally grown and should be planted 3 inches in the row and 6 inches between rows, producing a single stem. Since heat creates a tendency to blindness, not over 50 degree night temperature should be used. To secure the greatest percentage of doubleness, largest and most vigorous seedlings should be selected.

Varieties preceded by star (★) are the most popular colors.

"Non-Branching Column Stocks"

WHITE

★**Avalanche.** Pure paper white florets of good size and substance. Long massive spike. The earliest and finest white for outdoor growing, especially recommended for California and Arizona. Does equally well in the greenhouse.

Gardenia Improved. Flowers of purest white and quite early. Needs disbudding. A fine outdoor strain.

White Giant. Extra large florets of glistening white, without trace of green. A good long stemmed white for outdoor growing.

★**White Improved No. 16.** Semi-tall. An early pure white with large floret and compact spike. We consider this the finest white for greenhouse growing.

LAVENDER, BLUE AND PURPLE

Blue. A rich dark lilac-blue.

★**Purple Heart.** Bright violet-purple. Long stemmed and large flowers.

★**Silvery Lilac** (Lilac Lavender). Good stems, long flower spike. Early flowering.

PINK, ROSE AND RED

Chamois Pink. A warm rosy-buff color. Good flower spikes and long stem.

★**Pacific Pink.** Pure pink on cream base. A new color in Column Stocks without bluish cast usually found in most pinks and rose. Does well under artificial lights. Excellent Spring flowering pink.

Rose Pink No. 14. A fairly deep rose pink, slightly deeper than Supreme No. 22, and early to flower. A good market color.

Ruby. Rich crimson-red.

★**Supreme No. 22.** Rich silvery rose, extra long stem, fine heavy spike. Vigorous grower.

MISCELLANEOUS VARIETIES

★**Deep Apricot.** A coppery terra-cotta. Long stemmed.

★**Yellow Wonder.** Rich creamy-yellow, full double florets on long spikes.

Special Florist Mixture. A **formula-blend** of the most popular colors.

Each of above, ½ Trade pkt., **70c;** Trade pkt., (about 1200 seeds), **$1.15;** ¼ oz., **$2.75;** oz., **$10.00.**

TRYSOMIC GIANT IMPERIAL

Produces 85% or more double flowering plants when sown from seed. The planting can be increased to 100% at the four-leaf seedling stage as at that period of growth the young singles are noticeably weaker and easily distinguished from the vigorous double flowering plants. In all other respects the Trysomic Giant Imperial Stock is identical to currently popular double branching strains.

Choice Mixed. A **formula-blend** which includes rose, canary yellow, buff pink, fiery red, lilac lavender, navy blue and white, in just the right proportions. ½ trade pkt., **$1.00;** trade pkt., **$1.75;** ⅛ oz., **$2.75;** ¼ oz., **$5.00;** oz., **$18.00.**

STOCKS NON-BRANCHING COLUMN WHITE IMPROVED No. 16

IMPROVED GIANT BISMARCK (Early Giant Imperial)

One of the best Stocks, for both inside and outside planting. The plants grow in pyramidal form, about 2½ ft., are strong and robust and are covered with large double flowers. Plant close and take out center shoot as soon as safe to get more and longer side branches which that way produce more florets.

Antique Copper.
Appleblossom. (Blush-pink)
Buttercup. Deep golden yellow.
★**Chamois.**
Dark Blue.
★**Elk's Pride.** (Royal purple).
Fiery Blood-Red.
Flesh. Pale coral pink.
★**Lavender.**
★**Lilac.**
★**Rose.**
★**Shasta.** Vigorous, glistening white.

Each of the above. Trade pkt., **40c;** ¼ oz., **$1.20;** oz., **$3.80.**

Giant Bismarck Mixed. All colors.
Trade pkt., **40c;** ¼ oz., **$1.20;** oz., **$3.80.**

Winter Sweet Peas

(350 seeds per oz.)

SWEET PEAS ZVOLANEK'S MULTIFLORA

We have revised our Sweet Pea listings and offer only those colors and varieties in each type that have proven most satisfactory, based on grower's reports and our own experience.

Nitragin for inoculating Sweet Pea Seed, Garden Size Packet, **25c.** Sweet Peas should be inoculated with Nitragin before planting.

ZVOLANEK'S MULTIFLORA SWEET PEAS

A new free-flowering Sweet Pea. Many 5's and 6's on exceptionally long stems, making this a profitable market variety. Comes into flower between the Cuthbertson Floribunda and Early (Winter) Flowering groups. Peculiar to this group is the fact all florets on a stem are in bloom at one time.

Any of the following:
½ oz., 50c; oz., 80c; ¼ lb., $2.50; lb., $8.00

PINK, ROSE AND SALMON

Beauty Rose. Deep American Beauty, crimson-rose.
Rose Pink. Giant flowers.

SPRING FLOWERING

Preferred by most growers for spring greenhouse flowering, coming into bloom midway between the Winter and Summer Flowering groups. Do not sow before October for this purpose. Coming into flower a week or more before the Summer Peas, they are now widely grown outdoors.

CUTHBERTSON FLORIBUNDA SWEET PEAS

Developed under the direction of Frank G. Cuthbertson, the FLORIBUNDA strain not only has the superior qualities of the Cuthbertson Sweet Pea—heat resistance, long stems, tall vigorous vines—but with proper culture will produce **five or more large** fragrant flowers per stem.

Any of the following:
Oz., 40c; ¼ lb., $1.20; lb., $3.60.

VERBENA SPARKLE

Verbenas

(About 10,000 seeds per oz.)

GIGANTEA (Hybrida Grandiflora).

Alba. Very large, pure white.

Annapolis Blue. Spreading habit, shades of light to deep blue.

Beauty of Oxford Hybrids. Bright shades, ranging from clear rose pink to rose red.

Lavender Glory. True lavender. Large flower umbels. Fragrant. About 80% true.

Marilyn. Fiery cerise with a suggestion of scarlet, the small cream eye accenting the warm brilliance of the color. Mammoth clusters of large flowers, uniformly compact plants, early and free flowering.

Royale. Royal blue with creamy yellow eye.

Spectrum Red. Intense pure bright red without eye.

Vivid. Brilliant sunproof scarlet, brighter and more intense than Spectrum Red. Large uniform trusses, large florets. Compact plant, 8 inches tall.

Each of above 8. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00.**

Multiflora (Bush Type). An improved hybrida grandiflora. Masses of bloom covering the center of the plants, eliminating the troublesome hollow spot so often found in the older strains. Plants are of uniform bushy habit about 8 to 10 in. high, and 12 to 15 in. across, with flower heads practically touching each other. Most suitable for borders.

Firelight. Large closely spaced blooms of brilliant fiery red. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00.**

Roselight. Rose-pink with white eye. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00.**

Salmon Queen. Bright salmon pink, small white eye. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00.**

Snow White. Large pure white. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00.**

Starlight. Mid-blue with creamy-white eye. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00.**

Mixed. A well-balanced mixture. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00;** ¼ lb., **$9.00.**

Vaughan's Best Mixed. This is unquestionably the best of the taller Verbena mixtures. It is composed of the finest strains, all grown separately, and mixed in the right proportion. Trade pkt., **40c;** ¼ oz., **$1.00;** oz., **$3.00;** ¼ lb., **$9.00.**

DWARF VERBENAS

Large blooms so tightly arranged the effect is a solid mass of color. The habit is dwarf and compact; extremely free flowering. Plant retains its fine compact habit throughout the long blooming season.

Crystal. Large flowered snow-white.
Delight. Clear coral pink suffused salmon.
Sparkle. Bright scarlet-red with a gleaming white eye.
Each of the above 3: trade pkt., **50c;** ¼ oz., **$1.35;** oz., **$4.50.**

★Dwarf Master Verbenas

There has been an increased demand for Dwarf Verbenas in separate colors. We can now offer color selections out of our Dwarf Master Blend.® All have very large flowers, clear distinct colors with a contrasting white eye. Plants have the same dwarf compact habit as the mixture, early and free flowering, coming into bloom when quite small. Plants may be had in full-bloom for early Spring sales.

Master Rose. A true florist color.
Master Salmon. Soft salmon tone.
Master Deep Salmon. Slightly deeper than the above.
Master Scarlet. Very bright.
Master Crimson. One of the finest.

Vinca Rosea

(Flowering Periwinkle)

(About 20,500 seeds per oz.)

These are slow growers and must be started early. They are splendid as bedding plants or for combinations. They bloom all summer until frost and do well in either sun or partial shade. These should be in every florist's order for bedding plant sales.

Rosea. Pink, 18 in.
Fl. Alba Oculata. White with pink eye.
Alba Pura. Pure white.
Delicata. Soft pink.
Mixed.
Each of the above. Trade pkt., **30c;** ¼ oz., **65c;** oz., **$2.00.**

★**Little Pinkie.** 8 to 10 in. A dwarf selection out of Vinca Rosea Pink. Compact plants covered with rose flowers of good sizes. Very free flowering. These small plants make a fine show for early flat sales. Trade pkt., **50c;** ¼ oz., **$1.25;** oz., **$4.00.**

Viola

(About 25,000 seeds per oz.)

In most cases the true Violas are a better bedding subject than many Pansies as they seem to enjoy the heat of midsummer and bloom continuously.

Cornuta Admiration. Very large circular dark blue flowers. 8 in. Trade pkt., **60c;** ⅛ oz., **$1.10;** ¼ oz., **$2.00;** oz., **$6.00.**

Western Grown Roses

Our roses are carefully grown, well sprayed during the growing season, and dug only when well ripened, not before. They are carefully graded under close supervision, and with exceptional storage facilities available, we are in position to supply first class plants.

EXTRA SERVICE—If requested, we will supply without charge, copper wired labels for each non-patented rose. We will also supply at cost, except where no picture is available, a four color, glossy print suitable for counter use or use on display bins. Ask our salesman or write us.

CLAIMS for damage, shortage, variance in grade, or for any other reason must reach us within 5 days after shipment has been received. Because of the perishable nature of rose bushes, we cannot entertain complaints after this period.

PRICES are net, f.o.b. Western Springs, Ill., packing charges additional at cost. Shipments are made via express. Orders made up of 300 or more patented and non-patented roses will be extended the 1000 rate on the non-patented varieties only. Forcing roses are ready for shipment in late November and December, other varieties after early February.

Vaughan's Peonies

5 of a Kind at the 10 Rate—
25 of a Kind at the 100 Rate

Prices are F. O. B. Western Springs, Ill., packing charges to be added at cost.

We have an exceptionally large stock of our own growing. Strictly true to name, all in strong divisions, with from 3 to 5 eyes each.

The figures preceding the varieties are the rating given to them by the American Peony Society.

Peonies in established plantings need to be fed each Spring. A top-dressing of a balanced plant food well worked in will do wonders, but it should be applied early.

CARNATION

YODER'S DISEASE-FREE CARNATIONS

Rooted cuttings of Carnations, taken from isolated Mother Stocks grown from seed, and maintained under every protection from disease that modern science affords, will be available Fall to Spring.

So far as human agency can assure, these cuttings will come to you free from any virus, bacterial or fungus disease; and they will give the careful grower a clean start. By continuing the programme of protection, they should be made to yield superior results.

This is an important step forward toward the goal of eliminating the diseases that plague carnation growers, and if results prove its effectiveness, it offers a solution of that problem, but it should be understood that disease-free are not necessarily disease-resistant, or immune, and should not be subjected to unsanitary treatment or handling. They require the same precautionary methods which are necessary in handling ordinary commercial stocks or varieties.

PRICES ON THE FOLLOWING—SEE BELOW

WHITE

AURORA. Exceptionally large white. Flower size and heavy stem are points of emphasis. Performs best in higher than average carnation temperatures, and with a narrow range of difference between day and night temperatures. An average to heavy producer. **S-4**

COLO. WHITE SIM. Holley's reselection of White Sim. Most important asset is its non-splitting trait. In all periods repeated tests have demonstrated that splitting is very significantly lower than the parent variety. Somewhat fewer petals contribute to this as well as making for straighter winter stems. Vigor and production remain the same. **S-4**

ELECTRA. (NEW) Large informal white. Petals are deeply serrated. Exhibits the vigor, stretch, and production of White Sim with an improved stem for winter flowering. **Does not split.** **S-3**

IMPROVED OLIVETTE. A more vigorous, taller reselection of Olivette. **S-5**

IMP. WHITE SIM. Large white sport of William Sim. Best under high winter light intensities to improve stem strength. **S-4**

WHITE APOLLO. White sport of Apollo. Unequalled for year 'round productivity. A marked improvement over Olivette for flower size and stem strength during the winter months. More versatile than Apollo since it is not subject to fading. **S-5**

SALMON PINK

AMBROSIA. (NEW) A smooth and unvarying salmon pink. A shade lighter than Venus. Unusual stretch and rigid stemmed growth during the winter months. A durable flower for shipping. **S-3**

No. 2 APOLLO. An improved selection in Apollo, with larger flower size and markedly increased stem length. Color remains the same as Apollo. The improved vigor in stem and size is evident throughout the year. **S-5**

ATHENA. A lustrous salmon-pink slightly deeper than Venus and possessing a greater color clarity than Apollo under low light intensities. A reliable winter producer. Has vigor, stretch, and rigid stems. **Does not split.** **S-5**

SALMON SIM. Peterson's light salmon colored Sim sport. Identical in growth characteristics to Pink Sim. **S-4**

VENUS. A large, salmon-pink. Flawless color. Like Charm, possesses superb flower qualities coupled with a long, rigid stem. A noted exhibition variety. Performs most satisfactorily at Littlefield temperatures. **S-4**

LIGHT PINK

APHRODITE. A true light pink. An early producer with an early comeback. Best in high light intensity areas. **S-4**

PINK SIM. Peterson's flesh-pink Sim sport. **S-4**

VIRGINIA HERCULES. Well known for its form, color and keeping quality. Air cooling has extended its period of value. **S-3**

DARK PINK

HERMES. A good dark pink with high temperature color-retention tolerance. Becomes a scarlet pink during the winter months. Ships and keeps well. Rarely splits. **S-4**

MENTOR. Rich, rose-pink. Strong, rigid stems. Notable keeping and color retention properties throughout the year. **S-4**

SCARLET RED

CARDINAL SIM. Large scarlet-red sport of William Sim. The most vigorous and productive of the red Sim sports: Less petal serration. **Rorely splits.** **S-4**

HILL'S RED SIM. Sport of Wm. Sim. Outstanding for its improved vigor, stretch and rapid cropping habit. Flowers are somewhat larger being similar in form and color to Wm. Sim. The longer stems of good rigidity are especially valuable on the early crops. **S-4**

COLO. RED SIM. An improved William Sim. Greater vigor and productivity. **S-4**

STEPHEN'S RED APOLLO. Apollo sport. Bright salmon red. Flower is fuller, larger and much brighter color than original Red Apollo. Stems are longer with over-all vigor significantly greater than Apollo. **S-1**

SIREN. A bright scarlet. Combines heavy production with a fast comeback and uniform cropping on stems of medium length. **S-4**

CRIMSON RED

TOPPER. Crimson red. Very clear, bright color with medium sized flowers. Fine stretch with wiry, strong stems. Very productive, free growth. Does not split. **S-4**

TITAN. An intense crimson-red. Dependable and continuous growth during the winter months. Recognized for its better than average shipping and keeping qualities among the crimson group. **S-4**

YELLOW

No. 2 MIDAS. An improved vigorous selection from Midas. Length and strength of stem are markedly greater. Color remains the same. Form and size are more uniform. **S-4**

IMP. MILLER'S YELLOW. An improved color selection from Miller's Yellow. Formerly known as "Shirley Ann." Color is clear and intense. **S-4**

HARVEST MOON. An amber-gold sport of William Sim. Richly colored. **S-4**

NOVELTIES, VARIEGATED, etc.

AGATE ATHENA. Sport of Athena. Dark salmon bands and pencilling on salmon pink background. Has the same vigor, high production, strong stem and non-splitting character of parent variety. A very refreshing, lively color with good high temperature summer retention. **S-2**

STRAWBERRY SIM. Variegated red and pink Sim sport. An over-all narrow red pencilling diffused on a pink background. Background color markedly intensifies going into mid-winter conditions. A striking novelty. **S-4**

GAIETY. Variegated Sim. Flesh pink background overlaid with bright red pencil pattern. More stable than Cooper's Variegated. **S-4**

GARNET SIM. (Streiferd) Sport of White Sim. Scarlet red background with uniform white pencilling. Production and rapid rate of return for successive crops excels most Sim varieties. The color is remarkable for its stability and intensity. It does not fade in summer. The petal edge pencilling is of sharp contrast adding a frosted appearance similar to Scarlet Sim with broader areas of scarlet red. This selection is one of the most resistant to splitting yet observed within Sim varieties. **S-2**

COOPER'S VARIEGATED. Light pink background with medium to large red pencil markings. One of the fastest and most reproductive of the Sim sports. **S-4**

MAMIE. Variegated Sim sport. White background overtoned with thin red pencil striping. **S-4**

S. ARTHUR SIM. Sport of Cardinal Sim. Uniform, narrow scarlet red bands on a pure white background. Very stable to color and pattern. Size is larger and stems are stronger than average for Sim varieties. Splitting is no problem. An outstanding variegated Sim. **S-4**

SCARLET SIM. A tone on tone Sim sport. Color ranges from an intense scarlet at the base of each petal to a frosty white at the petal margins. Color becomes most intense under low temperature winter condition. **S-4**

CASSANDRA. A lively yellow variegated. Pink pencilling. Rarely splits. Flower has excellent substance and is an outstanding keeper. **S-4**

NECTAR. Large orange-yellow variegated with broad scarlet striping. **S-4**

PEPPERMINT SIM. Pearson's selection. Pure white background with red pencilling. Uniform and stable throughout the year. Good solid flower with little splitting. Somewhat taller than S. Arthur Sim. **S-4**

VAUGHAN'S SUPER GLOXINIA PLANTS

VAUGHAN'S SUPER GLOXINIA PLANTS are grown from the finest and most expensive imported Originators' seed. These seed have been imported from highly selected sources in SWEDEN, DENMARK, GERMANY, SWITZERLAND and LUXEMBOURG, and they produce the most beautiful gloxinia plants in the world. No gloxinia plants grown from tubers can approach these seed plants for beauty of foliage and very heavy flowering of blossoms four to five inches in diameter and heavily ruffled, some strains being so heavily ruffled with ten to twelve petals in the blossom that they appear double. They are easily grown from our stock seed plants if directions of the grower are followed and are **GUARANTEED** to produce the finest gloxinia plants in the world. All grower's stock seed plants are grown in steam sterilized soil and under ideal conditions to promote very heavy flowering over a long period and are clean and vigorous. Foliage of finished plants is flexible to permit easy packing. Plants are shipped either in two inch bands or out of 2½ inch pots in waxed paper pots, both at the same price. These plants will flower and be in excellent salable condition in 60 to 80 days.

VARIETIES

STOCK-PLANT PRICE LIST

NEW ECKE PINK. Blooming and growth habits same as regular Pink but having long bracts similar to the Oak Leaf type, which makes it very desirable.

BARBARA ECKE SUPREME. Definitely the most popular variety. Patented variety sold only under patent restrictions. The finest of all pot-plant varieties for the central and northern part of the United States. Stock plants produce freely, can be soft pinched and have the finest-colored bracts.

POINSETTIAS—(Cont.)

INDIANAPOLIS RED. Exceptionally fine variety for the southern states. Grows short and stooky.

Dealers Cost	Retail
$8.00	$1.00

THE JIFFY PLANTER, which one can use in a standing position, is a sturdy practical garden tool. It is made of strong durable steel with a tubular steel "T" handle. It easily cuts a cylindrical hole up to ten in. deep depending on the pressure put on the angle foot bar. A slight twist and the tool draws out the soil leaving an ideal hole for setting of bulbs and plants, and automatically pushes the soil from the cylinder with each succeeding insertion. Bulbs and plants can be planted to correct and uniform depth without leaving air spaces as so often happens when a trowel is used. Attractive baked-on green finish.

BIRD GROWTH-STIMULATING PLANT BANDS

Bird Vita-Bands contain root growth to transplant stage. Transplant stock is completely eliminated, resulting in 7 to 10 days earlier crop maturity.

Bird Vita-Bands are saturated with nitrogen to feed plant during initial stages of growth. There's no nitrogen depletion of soil. Three types of Vita-Band fill all your needs:

VITA-BAND D and No. 10 are packed 2,000 to the case—except sizes 3x3-in., 4x3-in. and 4x4-in., which are packed 1,000 to the case. Priced per 1,000—sizes in inches. Vito-bond H packed 1,000 per ctn.

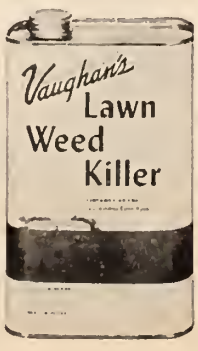
CHEMICAL WEED KILLERS
VAUGHAN'S LAWN WEED KILLER (2, 4D)

LOW-VOLATILE ESTER TYPE



S-448 Of all the weed killing chemicals, the original discovery, 2, 4D, is the most dependable. It does its work with raroly a failure, clearing your lawn of broad loaved weods, and keeping your grounds free of almost all unwanted plant gro' ths. Vaughan's Lawn Weod Killer contains 2, 4D plus 2,4,5T which makes it fatal to woody plants as well as weeds. Poison oak, poison ivy, cherry, honeysuckle and others are easily exterminated. 8 oz., covers 1,500 sq. ft. retails at $1.00, carton of 24, $14.40; quart, covers 5,000 sq. ft. retails at $2.75, carton of 12, $19.80.

Vaughan's Liquid Super SODAR® for Quick Kill

S-271 This high-power version ol SODAR®, the crab grass killer, comes in liquid form and should be applied with a sprayer. You can see the crab grass plants lose color as it hits them, and complete destruction takes place in a matter of hours, not days. Full instructions come with it. It will quickly clear a heavily infested space where you may want to make a new lawn. 1 pint covers 1500 sq. lt. 1 pint retails at $2.35; each $1.85; per case of 12, $16.92; 1 qt. retails at $3.95; each $3.15; per carton of 12 for $28.44.

VAUGHAN'S CRAB GRASS KILLER (SODAR) IS BEST OF ALL AND COSTS LESS

S-449 Researchers were surprised last summer by the effective way in which a chemical new to the weed killing group removed crab grass and chick weed lrom test plots without the slightest injury to the turl grasses. Not only did it do a better job than those previously used, but it was far more economical and easier lor an amateur to apply. We think so highly ol this discovery that we oller it under our own name, as Vaughan's Crab Grass Killer. The chemical which performs so well is Di Sodium Methyl Arsonate. It can be applied early or late in the season, on young plants or those about to seed. A sprinkling can works well on small lawns, and pressure sprayers on larger areas. One treatment kills young plants, mature plants may need two. 4 ounce, treats 1,000 sq. lt. retails at $1.25; carton of 12, $9.00; 1 pound treats 4,000 sq. ft., retails at $3.50 carton ol 12, $25.20; 5 lbs., treats 20,000 sq. lt., each $14.75; case of 4, $35.40 20 lb. drum, treats 80,000 sq. lt., $32.00 by express collect.

S-471 VAUGHAN'S LAWN CLOVER KILLER. A selective control of clover in all types of lawn. 8 oz. tin covers approximately 1500 sq. ft. of area. Retails each $1.25, carton of 24, $18.00.

Vaughan's KO®

Vaughan's High Grade Fertilizers

The Yield and Quality of Vegetation Depend Upon Continuous and Rapid Growth. Prices for Florists F.O.B. New York Store

It has been demonstrated that crops of the best quality are those which are grown under conditions which permit of a continuous and rapid development. Plant food of the right amount and kind controls the yield and quality of products more than any other condition, and it is neither wise nor economical to depend upon the natural condition of the soil or the application of stable manure only for profitable crops.

ADCO. Artificial Stable Manure. Convert all non-woody vegetable refuse such as stalks, cuttings, weeds, withered leaves and flowers, vines, etc., into artificial manure. A 25-lb. bag is enough for 12 wheelbarrow loads of waste, making ½ ton of manure. 5 lb. ea. $1.50, 10 for $10.00; 20 lb. ea. $2.75, 5 for $13.00. Instructions with each bag.

ELECTRA. Analysis 4-9-3. A high organic plant food for feeding, forcing and finishing. It should be used in potting soil as a top-dressing. Helps bring plants to highest perfection. 80 lbs., $6.50.

FER-MEL—TURF AND TREE FOOD 24-12-12. FER-MEL is different than many other "all purpose" water soluble plant foods on the market today. FER-MEL Turf & Tree Food is a special formula designed for turf and trees. This feature makes the difference in your lawn. FER-MEL is cleaner to apply with NO odor . . . NO dirt . . . NO dust. FER-MEL is easier to apply . . . with an ordinary garden hose or sprinkler . . . makes fertilizing your lawn the professional way just as easy as watering your lawn. FER-MEL can be applied anytime of the day—on wet or dry grass—even in the hottest day of summer—without danger of burning as with most dry fertilizers. FER-MEL is mineralized. These are important in fertilizing golf greens. FER-MEL contains all 12 plant food elements known to be essential to plant growth. The recommended amount of FER-MEL to use is 2 to 4 lbs. per 1,000 sq. ft. (1 to 2 lbs. in summer).

ROSE FOOD. An organic, no filler, 100% plant food of dried blood, fish scrap, bone meal, potash, cotton-seed meal and phosphate. This is a special mixture for growing roses and is a balanced, all-purpose fertilizer which can also be used on all flowers, shrubbery, etc. This type mixture has been used by commercial growers and florists for many years and has given excellent results. 5 lb. bag, retails for 85c, price, per carton of 12 packages, $6.80; 10 lb. bag retails for $1.45; price, per carton of six, $5.80; 25 lb. bag retails $3.25 each, $2.20; 80 lbs. $6.00 each, five for $28.00.

SHEEP MANURE. This is a pure, natural Manure, and its effect is immediate; it is excellent for mixing with the soil for greenhouse plants—one part manure and six parts soil. Strewn over and dug into the vegetable garden or placed directly in drills or hills, it promotes a rapid, steady growth until maturity. It makes the richest, safest and quickest Liquid Manure. For use in liquid form, one pound to five gallons of water will make a liquid which can be used with safety daily if necessary. 100 lbs., $4.00; 1000 lbs., $39.00; 2000 lbs., $75.00.

SULPHATE OF POTASH 48%. 25 lbs., $2.50; 50 lbs., $4.00; 100 lbs., $6.50.

SUPER PHOSPHATE. 18%-20% available. Bone phosphate the most available form. Used on grain crops and others requiring an excessive amount of phosphoric acid. 100 lbs., $2.50; 1,000 lbs., $19.00; 2,000 lbs., $37.00.

TERRA-LITE. (Vermiculite) is a sterilized seed starting medium composed of particles of natural mica, exploded to form countless tiny cells that hold water like a sponge without caking or packing down. It has been sterilized at over two thousand degrees F. Since it is disease free, danger of damping off is eliminated from soil borne causes. Packed in 2 grades, medium for seedlings, coarse for cuttings. Large 4 cu. ft. bag, $1.65 ea., 10 bags, for $15.00, 2 bu. bag, each $1.25, 10 bags, $11.50, 4 qt. size retails 45c ea., 12 for $2.94; ½ bushel size retails 85c ea., 6 for $3.18. 300 bags delivered free from factory.

UNIVERSAL ACID PLANT FOOD. (Analysis 5-12-4). A specialty plant food for the more difficult acid loving plants. It creates an organic acid soil condition, is not toxic to roots. Promotes root growth and plant growth which permits growing, training and flowering, with safety. Price per 80 lb. bag, $6.50.

VAUGHAN'S SPECIAL ROSE GROWER BONE MEAL. "Rose Grower." This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. Free from acid, and a superb article. It is made from bone accumulated in large slaughter houses, and should not be compared with the Bone Meal made from cattle heads and feet gathered upon the Western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it and is thus quicker in its action. Analysis: Nitrogen, 3.70%; total phosphoric acid, 20%, 100 lbs., $9.00; ton, $150.00.

REGULAR GRADE BONE MEAL. 2.40 nitrogen, 20% phosphoric acid. 100 lbs., $6.00; ton, $105.00.

IMPORTANT. The prices on this page are based on present prices of fertilizer and are subject to change as market fluctuates.

We are not responsible for loss of weight due to evaporation of any fertilizers.

BUYERS: Give this Check List the "Once Over" When Ordering

This is a list of items most commonly used and needed by Greenhouse operators during the catalog months of the year. A glance at the list will probably recall any needs you might have forgotten which would inconvenience you later. It will also be a suggestion aid as to the possibilities of filling any empty benches. Included are a few hints regarding varieties, time of blooming, and culture. All items are listed in our "Books for Florists," but this will give you a quick check for busy months. We are planning to print improvements on this in each book if it is of any value to you. We would appreciate hearing your ideas. Better keep this for references until the next issue.

Top Merion Lawn Still Costs Less

THREE CHAMPION GRASSES SELECTED by

While prices have risen for seed of Merion variety of Kentucky blue grass, the advantage of economy over less desirable grasses still remains for Vaughan's Merion Formula Master Blend.

In this combination of top quality and low cost, Merion is combined with two other improved grasses discovered or bred by turf researchers. At a retail cost of $2.25, each pound will cover 750 to 1,000 sq. ft. It would take 2 to 3 pounds of a top grade Kentucky blue grass mixture costing $2.90 to $4.35 to cover an equal area.

Delta Kentucky blue grass, discovered in Canada, and Pennlawn Fescue, hybrid variety bred at Pennsylvania State University, are included in the Master Blend of Merion Formula. The first starts growing earlier than Merion, providing early cover; the second insures that shady places and sandy soil will not be thinly covered, but as thick and green and the sunniest spots.

With its unsurpassed record for beauty on private lawns, endurance on playing fields and economy of original cost and upkeep, you cannot go wrong in recommending the combination of Merion with the two companion grasses which scientific research has developed and recommends.

Bags included on all grass seed grass for net. All grass seed prices net cash. F.O.B. Chicago and New York and subject to change without notice.

Quick Profits In Modern Packaged Bulbs

These full-color window packages sell themselves. Shop tests show that gardeners will pick them off the counter even when they had no idea of buying when they came in. Display them and double your bulb sales as well as your profits.

Best of all, you have no losses from skinned, damaged bulbs, no waste from picked-over open basket displays. Varieties can be kept separate, no complaints of accidental mixtures. Your customer gets a better bulb, protected from drying-out and mechanical injury.

You don't have to buy a set assortment (usually based on what importers have in surplus). Instead, you can order exactly the varieties your trade will buy.

Make your own assortment—one variety or as many as 24 different varieties in each carton.

Our suggested retail price $1.00.
